PRESS INFORMATION

Visitors: approx. 100.000 p.a.

Events: approx. 150 p.a.

Laying of the foundation stone: 14th May 2007

Opening: 24th July 2009

Core message: 'Every man has the ability to be a pioneer and to take responsibility for shaping the future'

Concept of the exhibition: The history of air and space travel over the past one hundred years, focussed on particular aspects of the development and achievements of the Dornier Company. The Exhibition is shown in the context of contemporary history and was designed by Atelier Brückner GmbH. Permanent and temporary exhibitions. Exhibition pieces from all over the world (many original planes, spacecraft exhibits, models, rare pieces of memorabilia from the aviation industry, and from Dornier's history).

Other Museum attractions: Restaurant with terrace, museum shop, cinema, special children concept and

PRESS INFORMATION

children's playing area as well as a Light Art exhibition by James Turrell.

Architecture:

The layout of the museum is a hangar that is based on an arm of the airfield of the airport Friedrichshafen, designed by Allmann Sattler Wappner Architects. Friedrichshafen is the birthplace of the Dornier Company, and therefore a perfect place for the museum. The connection to the location of the airport Friedrichshafen makes it possible to experience the history of aviation from its beginnings to the present day at first hand.

Partners:

Daimler AG, EADS, ESA and Lufthansa Technik
Circle of Friends and Sponsors of Dornier Aerospace Museum e. V.

Number of people involved:

approx. 80 people (members of the consulting team, project management, and the Dornier foundation for aerospace, service providers)

costs:

approx. 30.0 million EUR invest, raised by SD Objektgesellschaft mbH & Co. KG, Dornier Event GmbH and Dornier Foundation for Aviation
